DEATH OF MYRON TANNER.

stand vesterday of the death of Elder Myron Tanner of the Provo Third ward was a great surprise to most of the congregation, although it was known that his health was failing when he left his home in Provo about two weeks ago to go to the home of his son. Dr. Joseph M.Tanner at Forest Dale, where he died. Many hearts will offer a trib-ute of loving sadness to the memory of this faithful veteran in the Church, this plain, honest, kindly man, who has labored so faithfully for the material educational and religious progress of the people through all the years of his life, and whose good works leave an enduring monument to his memory, a priceless legacy to his numerous chil priceless legacy to his humerous chil-dren, which they and their descendants can proudly cherish with reverent love through coming generations. May his rest be sweet in the home of ineffable peace for which his spirit has departed.

Dr. Miles' Nervine and Heart Cure Cured.

The reason Dr. Miles' Remedies cure such a large percentage of cases is because they are formulated to and actually do, go at once to the root of the disease. Doctors often make the mistake of treating the symptoms a method which must always fail. Dr. Miles Nervine restores health, strength and vitality to the nerves. Dr. Miles' Heart Cure enriches the blood and improves the circulation so that the patient speedily regains health.

"I feel it is a pleasure as well as duty to inform my friends the means I used to regain my health. I have been troubled a great deal with nervousness and headache; begeal with nervousness and neadache; poe-gan to observe enlargement of the neck until it became so bad I felt it severely, especially blood on the brain. The least excitement gave me dreadful pain and I would lose all control of myself. I lived in this misery for about ten years; consulted many doctors, but accured no relief whatever. I commenced the use of Dr. Miles' Nervine and a few days later began the use of Dr. Miles' Heart Cure and within a week I felt very nuch better. The second week my friends told use I was beginn years much better. told me I was looking very much better. This encouraged me and I continued the use of the two remedies until now I am well enough to do my own housework without any trouble whatever. I consider my health good, the cure permanent and I can do any lind of work."—Mrs. CHARLOTTE ELG, lidaho Falls Lidaho. daho Falls, Idaho.

### THE SESSION IS RESUMED.

Congress Begins a Period of Strenuous Legislation.

LOTS OF HARD WORK AHEAD

mportant Measures Are Pending and Appropriation Ellis Have Right of Way-The Case of Hobson.

Special Correspondence. Washington, Jan. 6 .- Congress reassembles after the holiday recess with the full knowledge that there is very little rest in sight now until the 4th of March and aware that in the windup as usual, there will be protracted night sessions before the appropriation bilis are all safe in the hands of the president. While the supply bills will be given the right of way as far as possible, there is a deal of legislation that members are anxious to put through. It would all stand a better chance if it were not for the omnibus statehood bill standing in the way and likely to occupy all the time of the senate. Senator Quay intends to get a vote at the carliest moment. Possibly some unob-jected measures which will not lead to debate may be passed, and in this way more or less local legislation will be ac-complished. There are a number of important public measures which should be passed that are pending in the senate, and there is likely to be a great deal of jostling and crowding for front place. But it is not now be-

A COMBINATION OF INTERESTS. Representative Hepburn of Iowa says that trouble between capital and labor will be avoided in the future and that employers and employed will reach an understanding by an agreement as to the wages to be paid. He says that an examination of the schedules of rates of various railroads filed with the interstate commerce commis sion will show that all roads which have, voluntarily or upon demand, increased the wages of employes have ncreased the carrying rates to more than cover the amounts to be paid out to the employes. "This sort of thing." said he, "will go on among atl big cor-porations. Capital will combine with labor and by increasing wages and in-creasing charges to shippers and consumers will make up the loss."
"But will not the shippers and consumers squeal?" he was asked.
"Squeal! Of course they'll squeal, but

legislation of an important character.

what good will it do them? A combi-nation of capital and labor will be too strong for them."

THEY LEARNED QUICKLY. "The committee on territories," said Senator Burton of Kansas, "spent a week visiting the three territories seek-ing admission as states and then came back here knowing all about them. I have lived neighbor to Oklahoma for years, and I think I know considerable about the conditions, yet I am told by members of the committee that their knowledge is superior to mine. We who went to Hawaii as a sub-committee to investigate the needs of that territors spent 42 days there, and we all knowledge that there is a great deal more to learn. The senators of the territorial committee seem to have more qualities of absorption than we who went to Hawaii possessed."

HOBSON'S HARD TIME.

The efforts that have been made in behalf of Constructor Hobson of the navy have not yet placed him upon the retired list. Hobson has been the subject of a special message from the presdent, who urged Congress to do for him what a retiring board of the navy re-fused to do-place him upon the re-tired list for disability. Hobson has de-clared that his eyes will be ruined if he continues working at his profession the navy doctors say his eyes are not affected yet. The navy department thinks that his usefulness has been

greatly impaired by reason of his desire to get out and because he does not get along well with his superiors. Hobson does not want to resign, as he would then lose the pay of retired offi-cers. Congress may relent and pass the special act for his retirement, and this will end the naval career of the man who sank the Merrimac in the mouth of Santiago harbor.

WHAT IS FAME?

Representative Gardner of Massa chusetts tells an interesting experience he had in patronizing a clipping bu-He started in before he came to Congress, and he was sworn in on the first day. The announcement went out in the press dispatches that Mr. Gardver was among the four new members who were sworn in, and every paper printed it. The clipping bureau seized it and sent him a clipping from every paper in the United States.

DELEGATE RODEY'S WORK,

I heard a Republican member of the house "cussin' out" Delegate Rodey the other day, and yet it was quite a compliment to Rodey. It happened this way: The member was first expressing his disgust because the house passes the omnibus statehood bill at the las session and was blaming the committee on rules, and Chairman Knox particularly, for reporting the bill.
"Why didn't you fellows get together and defeat the bill in the house?" was

asked. "It couldn't be done," said the irate Republican. "That man Rodey had been at work. He sneaked around and got pledges from everybody he could He promised that New Mexico would be a Republican state, and he was such an insinuating fellow that the first we knew he had enough of our fellows pledged to carry the bill through."
